## Work Experience

### Accolade Tech Solutions Pvt Ltd

UI/UX Design Intern · Bengaluru · Feb 2026 – May 2026

- Designed 60+ responsive web and mobile screens across 4 client projects.
- Produced 50+ wireframes, user flows, and prototypes to validate designs and catch usability issues early.
- Collaborated with clients and developers to deliver implementation-ready UX with minimal rework.
- Established a 40+ component design system, enabling scalable and consistent interfaces across projects.

## Projects

### Eventra · [View project ↗](#)

- Designed 25+ mobile screens for event discovery, ticket booking, organizer profiles, and recommendations.
- Created end-to-end user flows and information architecture, translating them into high-fidelity prototypes.
- Developed an accessible component library to ensure consistency across all screens.

### BusFlow · [View project ↗](#)

- Designed a mobile-first experience for locating nearby bus stops, routes, and estimated arrival times.
- Streamlined destination search from multiple steps to 3 taps, improving navigation efficiency.
- Assembled interactive prototypes and a shared UI pattern library to speed up iteration and testing.
